## AGAIN TRIED TO BLOCK THE PORTS

Japs Sink Four Steamers in the Channel, And Russia Claims the Harbor is Open.

## SOLDIERS SUFFERING FROM PRIVATION, FROST BITES AND DYSENTRY

Russia Stringing a Line of Forts Across Liao Tung. Bad Management of The Transportation Department on the Trans-Siberian Railway.

Russian Traitor Sentenced to Penal Servitude.

### Russians Fortifying Antung.

Tokio, Saturday, March 26.—A private telegram from Korea states that the Russians are establishing a stronghold in a position in the vicinity of Antung.

They are said to have seven fortresses completed and to be engaged in erecting six additional ones.

It is also reported that four batteries of artillery have been established at Chang Sieng.

### Russians Living on Horse Flesh.

Tokio, Saturday, March 26.—The Russians are experiencing great difficulty in transporting supplies and munitions of war to the troops at the front. The difficulties are particularly great in the vicinity of Liao Yang, the breaking up of winter having put the roads in very bad condition. It has been necessary to repair them in many places and also to build new bridges and replace old ones carried away by freshets, or destroyed by the Japanese.

While the commissariat wagons have been floundering through mud, silt and water, the troops in camp, unable to procure cattle, have in some cases been reduced to the necessity of killing and eating horses.

### Confusion Along the Railway.

New York, Saturday, March 26.—The Sun's Berlin correspondent cables erroneous accounts of the state of affairs along the Trans-Siberian railway. Mismanagement in the handling of troops passing to the seat of war has resulted in wholesale confusion and untold suffering among the troops.

The soldiers are suffering from dysentery caused by the black bread served out to them, and every hospital is filled with frost-bitten and broken down men.

The lazaretos between the Siberian frontier and Irkutsk are filled with men who have collapsed on the way from Krasnoyarsk.

### Sold Information to Japs.

St. Petersburg, Saturday, March 26.—Captain Irkortf, of the Manchurian commissariat service, who was arrested on the charge of having sold information to Japanese officers, has been found guilty and sentenced to 25 years penal servitude.

### Japs Again Try to Block the Harbor

St. Petersburg, March 27.—Vice-Admiral Makaroff, commanding the Russian naval forces at Port Arthur, has sent the following telegram to the Emperor:

"I beg most humbly to report that the Japanese have made a strong attempt to block the entrance to the inner roadstead this morning.

"For this purpose they despatched four large merchant steamers, accompanied by six torpedo boats, to the entrance of the harbor.

"The enemy's ships were promptly discovered by the searchlights and were bombarded by the batteries and the guardship *Bash*, in the offing."

### ONTARIO FLOODS

#### STUDENT DROWNED

The City of London, Ontario, Flooded by an Abnormal Rising of the Thames.

#### (Bulletin Special Dispatch).

London, Ont., March 28.—The river Thames rose to a point 11 feet above the normal height during the morning, which is two feet higher than it had been since the flood of 1883, when fifteen residents of the West London district lost their lives.

All the low-lying districts of the city are under water.

Two medical students, G. N. C. Martin and Fred Adams, ventured out on the north branch. Both were thrown into the water and Martin, although a good swimmer, was unable to reach shore, and was swept over the dam and drowned.

Wednesday, Evensong and service at 8 p.m.

Good Friday, services at 11 a.m. and 7:30 p.m.

Easter Eve, Litany at 8 p.m.

Easter Day, celebration of the Holy Communion at 8:30 and 11 a.m. Children's service at 3 p.m. Evensong and sermon at 7 p.m.

The "Crucifixion" will not be sung this year, but the "Story of the Cross" will be sung on Good Friday evening.

### HOCKEY.

Editor Bulletin.—Kindly permit me through your valuable paper to announce to the world the hockey event of the season, a match arranged for this Monday evening, between the bankers and the employees of the Hudson's Bay Company. The commanding goldine cup presented at enormous expense, and now on view in the windows of the H. B. Co., will be the reward of valor. It may be mentioned that the money changers will wear Scotch tweed as they will be quite at home among the checks. The regals of the counter jumpers has yet been arranged.

Thank you, Yours,

HOCKEYIST.

## THAT NEW ORDINANCE.

(White Whale Lake Correspondence).

Quite a surprise came to us when we learned on the evening of March 21st that municipal elections had been held on the 19th inst. It was the first intimation that such a move was to be made that had come to our notice; and we usually try to keep ourselves posted on current topics. Of course we were aware that an ordinance had been passed at the last session dealing with this matter. But it was not generally known, and had been very little discussed through the press. The great majority knew nothing of its scope or character or design; and to ask the people on a week's notice to go out to vote for somebody for something, under such circumstances, is a sample of doing things for which an intelligent, reasonable people, we are not quite prepared.

It appears that it was about time that our Regina officials took the people into their confidence before they again attempt such a rushing movement so fraught with consequences.

The new municipal councils thus suddenly (shall we say prematurely?) born, are given wide powers in all matters of local self-government. They control all local public works, roads, bridges, contagious diseases, noxious weeds, local licensing, etc., and have power to impose taxes up to \$8 per quarter.

On a few day's notice, without, in the great majority of cases, knowing why they are called together, the people are asked to elect a council. How, under such circumstances can they be expected to make a wise choice for such a responsible position?

Quite evidently the officials whose pen gave birth to these new municipalities consulted only well maps, for no consideration seems to have been given to local conditions.

Take the Mewasin settlement as a sample. They petitioned to be made into a local improvement district. By this stroke of the pen the eastern fringe of the settlement is thrown in with the western parts of Stony Plain and Rosenthal settlements, though these are separated by a heavy belt of timber and rolling land, and have diverse interests. The main part of Mewasin is left out in the cold, no provision being made for its organization having been made. The reverse separates it from the north side settlement around White Whale Lake and heavily timbered land lies on the west, and the river to the south.

By this ordinance no provision is made requiring a person to be a British subject to qualify as a councillor. Nor is any educational test of fitness applied. The most illiterate person may be elected.

We shall await with interest the reports of election to the various councils, and the records of their proceedings will no doubt in some cases be instructive in showing how not to do things.

## PROSPEROUS CANADA.

The eyes of the world are on Canada and everything points to the year 1904 being a banner year for immigration, especially from England and the United States.

Below is a sample of how the Canadian government agents in the United States are advertising the Canadian

"Western Canada Home Seekers excursion! To all points in Alberta, Saskatchewan, Assiniboin and Manitoba. Join the crowds now with your own eyes the finest stock and grain country on the continent. Never mind what others say, seeing is believing. Remember the Canadian government gives 160 acres free to all heads of families and young men over 18 years of age."

The old methods have gradually been discarded and up-to-date and wide-awake immigration agents have been appointed at all points in the old country and in the United States. The results have exceeded all expectations. Last year was a banner year, but 1904 will from all indications exceed it.

Enquiry at the land office shows that the correspondence during 1904 has increased enormously. In February, 1903, 1,106 letters were received, a record number for that month, while in February 1904, 1899 letters were received. The Peace River country especially is being enquired about, also Lloydminster and the Vermillion and Britannia settlements.

With good crops this year, the construction of the Grand Trunk Pacific and Canadian Northern railways, Western Canada during the coming years, will be as favorable a place for settlement as exists.

Edmonton is bound to receive as much if not more benefit, from this large inflow of immigration and railway construction as any town in the west.

## SPRING.

The weather that people have been looking and longing for a week or so was inaugurated on Saturday evening, when the steady cold began to moderate.

Yesterday was in remarkable and pleasing contrast to the preceding Sunday. Instead of falling snow and driving wind was the pleasing patter of the eavesdrop and the swish of descending avalanches, as roofs discharged their burdens. The day was warm and sunny and a balmy breeze straying across from the Pacific melted the snow rapidly. Freed from the restraint of chilly and stormy days, all the town was abroad, riding, driving, strolling, finding no fault with the slush—glad that at last there was slush to tramp through. Here and there where bare, dry spots of sidewalk emerged from the snow, knots gathered and chatted in the sun, not from the particular pleasure of chatting, but from the pleasure of being able to tread dry, solid, unslippery boards again and stand there with comfort and assurance if one wanted to. Fur coats were conspicuously rare, and their places were taken by the light spring cloth overcoats and jackets, or by none at all, according to individual inclination and the condition of the wardrobe, the weather being mild enough to require the former.

A few successive days like yesterday will plunge the homes of this usually peaceful community into the throes of annual housecleaning.

## OPEN TO THE WORLD.

Two rinks of Old Timers have requested the Bulletin to announce their willingness to demolish all comers at the earing rink at as early a date as can be arranged.

The challenging rinks are Old Timers not in name only, and consist of men who were in Edmonton prior to the year 1885.

No restrictions are made and the challenge may be accepted by any of the regular rinks of the club, or by any combination of players willing to assume the risk.

As the season is late the challenge should be accepted at once, before the ice softens. The acceptors may arrange the dates.

## OFF FOR THE NORTH.

Miss Gordon, of Fort McMurray, left for her home in the far north on Saturday after spending a week in town. The fur brought in by her was sold on Friday to T. Houston.

Louted also left on Saturday for the north. He will be engaged at Athabasca Landing for some time building three boats to take down supplies when navigation opens.

## NOTICE.

## SPRUCE GROVE.

(Bulletin Correspondence). An election was held at the Spruce Grove school on Saturday, the 19th inst., from 2 to 4 p.m. for the purpose of electing a councillor under the new ordinance, for T. 53, R. 21, west of the fourth meridian.

Mr. L. Whitmers acted as returning officer. At the close of the poll Mr. Dan Bros. was declared elected.

The attendance was very small, about a dozen voters turning up. The bad state of the roads and the meeting not having been advertised sufficiently probably had a great deal to do with the small attendance. There has also been a great deal of dissatisfaction throughout the whole of the Story Plain settlement on account of the way our district has been divided.

A largely signed petition has been sent to Regina to have the district altered, so that we should have "the exclusive control of all roads through out our settlement leading towards town. As it now stands, the Plain is split up by the 14th base line, which means 53-26 and 53-27 being joined to the Poplar Lake district. We can only hope that the Governor-in-council will alter this before very long, as it is in the interests of every settler on the Plain, and will also simplify matters for the councillors, to have the Plain intact from the Poplar Lake district, as they are not in the least interested in the 14th base line.

Business at the Grove seems to be booming. Mr. Phillip Umbach has erected a small warehouse for the storage of repairs and implements of the McCormack Company, for which he is agent at this point. He has got a good lot on hand with more to follow, so that all patrons of that company will be able to get what they want from him and thereby save a trip to town.

Mr. Willie, one of our store keepers, is also handling the celebrated Frost & Wood machinery, of which he has a quantity on hand.

7th inst. for the old country, where Mr. John McPherson left on. He will act as special immigration agent for a few months.

Mr. Jos. Suder is to be congratulated on the arrival of a visitor in the shape of a bouncing baby boy on the 18th inst.

The weather was very stormy on Sunday and Monday, and it leaves the roads in very bad shape. Most of the side roads are drifted full of snow.

March 25th.

Laird and Christman are doing a rushing business in their new store, and have a large stock of all kinds of goods always on hand. They are agents for the De Laval cream separator. They are also handling the Deering Company machinery, and are getting in quite a stock for the summer. We also have a blacksmith at the Grove, who is prepared to do all work entrusted to him in a workmanlike manner.

We regret to announce the death on Monday of the infant son of Mr. and Mrs. J. Suder.
